

## Exercise 7.3

## Exercise 7.4

## Exercise 7.5

## Exercise 7.6

- This event does not affect the state of the object.
- An existing user has to enter his or her password.
- The message is displayed when the new user enters their details into the system.
- The user can change the delivery address while the order is in the Checkout state.
- No.
- The life of an object ends once the order is dispatched or if the user cancels the order.
