

## Exercise 5.8

- a Yes, the multiplicity at the Order end of the Customer/Order relationship is one or more.
- b An order consists of at least one order line.
- c No, the multiplicity at the Order end of the Payment/Order relationship is one only.
- d There is one product in each order line.
- e It is an inheritance relationship, a CD is a kind of product.
- f Yes, the multiplicity at the OrderLine end of the Product/OrderLine relationship is zero or more.

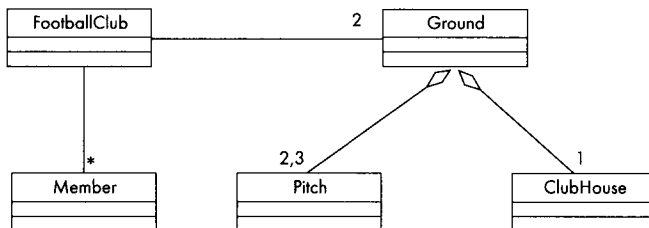

## Exercise 5.9

Part a<sup>1</sup>

## Part b

## Part c

1. Remember that where the multiplicity is one only, the '1' symbol may be omitted (see Chapter 4)
